REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The fluidized bed as claimed wherein a draft tube arranged inside the processing container, and a disintegrator mechanism for dispersing agglomerates of powder particles by a mechanical disintegration force, and wherein the fluidized bed apparatus being characterized in wherein a fluidizing gas introduced through a bottom portion of the processing container causes powder particles in the processing container to form a fluidized bed in which the powder particles circulate so as to ascend through a space between an inner wall of the processing container and the draft tube and descend through an inner portion of the draft tube, and wherein the fluidized bed apparatus further comprises a rotary rotor for sending the powder particles that have passed the disintegrator mechanism to an upward current of the fluidizing gas by centrifugal force. The combination of having the claimed flow path of the fluidized particles and having both the disintegrator and the rotor along with having the draft tube is missing in any prior of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
